GAMCO's New Product Architectural Details Manual Now Available

-Updated Information Offers Greater Design and Technical Assistance -

FLUSHING, NY, March 18, 2015 – Gamco Corporation is pleased to announce the availability of its new Product Architectural Details Manual for its quality fenestration and architectural metal systems. The manual is available in electronic digital or print versions, and features detailed information to assist architects, specifiers, glaziers and fenestration installation contractors in selecting the best system for every project.

Gamco's Architectural Product Details Manual includes for each product line various configurations and profile drawings, exploded assembly diagrams, and installation accessories. All detail diagrams are representative for use with architectural drawings and project specifications.

"Unlike mass produced products, our products are custom fabricated for each project," said Howard Nguyen, Marketing Manager for Gamco Corporation. "Our new Architectural Product Details Manual provides the information that architects, engineers and specifiers need to bring their design ideas to reality."

The manual includes Gamco's framed and frameless commercial entrance doors, storefront framing and glazing systems, curtain wall system components, balcony doors, structural skylights, windows and railing systems. It also includes Gamco's screens, hardware, louvers and installation components necessary to complete the project.

Architects, specifiers and fenestration professionals wishing to obtain a copy of the new manual in either digital or print format should contact Gamco at 718-359-8833 or howard@gamcocorp.com.

###

Gamco Corporation manufactures a wide variety of custom quality fenestration systems and architectural metal appointments for commercial, institutional and residential properties. Founded in 1986, the company has established a reputation for excellence in quality, customer service, design and manufacturing. Based in New York City, the company serves architects, fenestration contractors, glaziers, construction professionals and property owners throughout the metropolitan area, Northeast and Mid-Atlantic states. For more information, contact Gamco at 718-359-8833 or visit www.gamcocorp.com.

Gamco Corporation's new Product Architectural Details Manual (cover and illustrative page shown) provides architects, specifiers and fenestration installers with vital design and technical information.
